	Stream, dry streambed			
	Tree, low vegetation			
	Gradient arrow ^{*5} , depth indicator			

Footnotes:

* Symbol different from UIS recommendation.

¹ For clarity, on some plans the lower level is shown in gray or using denser dashes.

² On some profiles, ledges are marked with this kind of line. On plans it always means a ceiling feature.

³ Symbols used when features are too small to use perpendicular ticks.

⁴ Both symbols used, meaning is the same.

⁵ Note: the same symbol is used for an entrance arrow and a gradient arrow.

⁶ Note: similar to the moonmilk symbol.
